#### Thought from Dawn

What is it about the lighter evenings that we find so attractive? Is it the opportunity for greater productivity that the extra hours of daylight offer? Could it be that we feel more energetic, more awake when it's light? Light gives life – it certainly encourages plants (and grass!) to grow. It has a positive effect on us physically and mentally – not to mention practically – allowing us to see where we're going!

On Good Friday our service of Tenebrae (a Latin word meaning 'shadows') closed with a poignant reading from the Bible which spoke of Jesus being the light that shines in the darkness of this world. It went on to say that the darkness has not understood this light.

In the spiritual sense, light represents life, truth and righteousness. Some people shy away from this kind of light for fear of exposure. Others are drawn to it for reasons they may not be able to explain. Like physical light, spiritual light has tremendous benefits. The life and light Jesus brings, is life that is everlasting and light that cannot be extinguished. It will warm us through the coldest winter, light our darkest hour, reveal the path before us and lead us safely home. May the Lord bless you with his light and life!

**SHOE BOX APPEAL** Throughout the year I meet with a small group of ladies to collect and make items for the shoe box appeal (Samaritans purse). These are then sent at Christmas time to disadvantaged children in other countries. We currently need items such as small toys, stationary, sweets, soap, toothbrushes and toothpaste to include in the boxes. We also require wool and ribbons for the ladies who knit hats and puppets. I would really appreciate your support to continue with this work and therefore have left a box at the back of All Saints church where you can leave these items. You can also ring or text me for any queries on 07767757732 Thank you very much **Jill Masters**

**Shotesham Common** Last year, because the internal fencing was not secure, it was not possible to graze the church end of the common. This gave the wild flowers and grasses a chance to grow. Because this was so successful, the Trustees have decided to wait until late summer before grazing again this year. The recent work done on the common was to improve the drainage ditches and crossing points to allow better access for cattle and walkers.
